Phase 1
(20 min)
Conceptual Introduction
Random vs. grammar fuzzing; Fandango syntax
Phase 2
(15 min)
Live Demo & Setup
Instructor runs buggy calc + grammar; students install via Drive
Phase 3
(45 min)
Guided Replication
Students run provided code, .fan file, .md → observe crashes
Phase 4
(20 min)
Extension & Reflection
Add bugs or write new program; post-questionnaire
